Power Vacuums \$105 per hour for all tiers (minimum of 1 hour)

Repairs \$125 per man hour for all tiers (minimum of 1 hour)

*The Seasonal Package is a discounted pre-payment package that must be paid in February to receive the 10% package savings. This package includes the Summerize, Winterize, 2 Winter Checks, 17 Weekly Services (beginning two weeks prior to Memorial Day, ending the week after Labor Day). The package price above adds these individual service prices together and then discounts it 10% for the pre-payment. Extra charges over the prices above include: sales tax, repairs, misc. labor, cover water/leaves, water level pump downs, extra Weekly Services, Power Vacuums, chemicals, parts and/or accessories.

-Our Summerize is ideally divided into two segments. Part 1 (performed in April) includes: unplug all lines and install fittings; install pump, filter, chlorinator, auto-cleaners, etc.; grease valves/o-rings; prime and start your filter system, checking its operation; summerize heater; etc. Part 2 (performed in circled time-frame) includes: remove cover, sweep and fold; empty and fold water bags; reconnect diving board, ladders, handrails, etc.; check the chemical balance of the water; set your time clock; and sweep the patio around pool.

-The Winterize includes: cleaning filter; disassemble pump, filter, chlorinator, auto-cleaner, etc.; winterize heater; install blow-out extensions; blow out skimmer and return lines, plug lines, detach drain plugs; check the chemical balance of the water; detach diving board, ladders, rails, etc.; install pool cover and secure.

-Winter Checks (performed twice each winter) includes: check water level; check chemical balance and water quality; check pool and equipment for freeze issues; check on cover security, replacing any broken water bags and tightening springs.

-Weekly Service includes: vacuum pool (45 min. max.); empty all baskets; backwash filter when needed; skim the water surface; brush the pool; check the chemical balance; and clean scum line when needed. Weekly Services are automatically scheduled from pool Summerize until pool Winterize.

-Discounted Weekly Service is the same service as our Weekly Service but performed early in the week.

-Non-Vacuum Weekly Service is the same as our Weekly Service but without the vacuum and brushing. It is designed for customers with auto-cleaners. Occasional chargeable vacuums are needed because of fine sediments the auto-cleaners usually do not pick up.

-Power Vacuum is any vacuum that is not on a weekly basis or any time over the weekly 45 minute allotment.

-Extra charges over the prices above include: sales tax, repairs, misc. labor, cover water/leaves, water level pump downs, extra Weekly Services, Power Vacuums, chemicals, parts, and/or accessories.
